

Sri N. B. SIRDesai.—Is there any proposal to study the situation and the requirement of that area and reconsider the answer given to question (d) ?

Sri N. M. KOTRABASAIH SOGI.—While providing educational facilities, the following aspects are taken into consideration:—population of the village, expected strength of children for the school, building facilities, and the nearness of the village to the schools. It is not possible to provide to primary school for any village where we cannot expect a student strength of at least 20 for the Maland area and 40 for any other areas.

Mr. SPEAKER.—The hon. Member is not present to put question No. 61. Now Question 66.
